

Celebrating World Environment Day

World Environment Day (WED) 2024 is a reminder for every individual to recognize our responsibility toward Mother Earth and take small, meaningful steps toward sustainable living. In line with this spirit, the EEP ECO-CLUB family is dedicated in continuing the efforts on this journey towards a greener future. This year, a week-long series of activities were organised engaging young superheroes and eco-warriors, focusing on the theme of WED 2024: "Land Restoration, Desertification, and Drought Resilience". The activities aimed to address various environmental challenges, blending both online and offline events. Online events included exciting activities such as Green Reels and Quiz competition, and a fun learning event Eco-Hackathon. Offline events included promoting hands-on efforts like nature walks, tree planting drives under Ek Ped Maa Ke Naam, hugging trees, learning about local plants, and maintaining kitchen gardens. To motivate participants, exciting prizes, incentives, e-certificates were offered, celebrating everyone's contribution to the health and well-being of our planet. >> [Read more](#)

PROTECT
OUR
ENVIRONMENT.

GREEN REELS & ONLINE QUIZ COMPETITION

Green Reels Competition with #greenreelsikkim2024 was conducted encouraging participants to create social media sensational short, impactful videos on key environmental topics. Additionally, an Online Quiz Competition for students deepened their understanding of environmental challenges, fostering a sense of responsibility for a sustainable future. Both initiatives successfully engaged young minds and amplified our efforts to protect the planet. >> [Read more](#)

CONNECT WITH NATURE - KNOW YOUR PLANTS *through Nature Walk*

In the lead-up to World Environment Day, students from Burung JHS, Sikkim, took part in a nature walk, gathering leaves, flowers, and twigs to create vibrant nature bracelets. The activity, "Connect with Nature: Know Your Plants," encouraged creativity while deepening their connection with the environment, leaving a lasting impact on the young participants.

ECO-HACKATHON:

Eco- Creativity & Innovation Hackathon

Eco- Hackathon, a highlight of the World Environment Day 2024 kick start event launched by the Environment Education Programme cell of the Ministry of Environment, Forest and Climate Change in association with PiJam Foundation, invited students to present innovative solutions for environmental challenges like land restoration and drought resilience. This inclusive digital platform fostered creativity and collaboration, providing participants with valuable feedback to bring their ideas to life. The event empowered the next generation of environmental leaders, turning their passion for the planet into actionable solutions.
