**North East Network (NEN)** is a women's rights organisation established in 1995. NEN works in the north eastern region of India (NER) with offices in Assam, Meghalaya, and Nagaland, with its Assam office as headquarter. In the NER the lives of people are entwined deeply with the environment, with community forests and land, enabling collection of non timber forest produce (NTFP), wood and wild plants, and agriculture. Women are important players in natural resource management being farmers as well as sellers. Natural resource management is an area where NEN has extended its work, seeing women and youth as key to conservation and preservation of traditional practices. This was initiated in partnership with Dusty Foot Productions.

**Dusty Foot Productions (DFP)** is a film and communication resource agency working pan India, with special focus on video documentation and educational projects related to wildlife, environment and people biodiversity issues. DFP has been working on video documenting such projects in the NER since 2002. In the last 12 years DFP has produced several award winning films including 'The Wild Meat Trail' that won the Green Oscar or the Panda award at Wildscreen festival in UK, one of the most prestigious wildlife and environment film festivals internationally.
